*"Study hard what interests you the most in the most undisciplined, irreverent and original manner possible." - Richard Feynmann*

## Experience

### National Institute of Physics, University of the Philippines Diliman

Quezon City

TEACHING FELLOW

Sept. 2022 - Jan. 2023

- Scholarship offered by UP to PhD students in order to reduce the teaching load of the faculty members
- Responsibilities include assisting faculty members in teaching classes

### National Institute of Physics, University of the Philippines Diliman

Quezon City

SCIENCE RESEARCH SPECIALIST

Aug. 2019 - Dec. 2019

- Project: Standards and Testing Automated Modular Platform (Stamp)
- Principal Investigator: Giovanni Tapang, Ph.D.
- Develop a cheap alternative for existing ISO methodologies implemented in Regional Standards and Testing Laboratories (RSTLs).

### National Institute of Physics, University of the Philippines Diliman

Quezon City

INSTRUCTOR

Aug. 2017 - Jul. 2019

- Taught recitation classes on Classical Mechanics (Physics 71), Optics and Electricity and Magnetism (Physics 72), Thermodynamics, Special Relativity, and Quantum Mechanics (Physics 73), and Modern Physics (Physics 104).
- Taught laboratory classes on Classical Mechanics (Physics 71.1), Optics Electricity and Magnetism (Physics 72.1), and Thermodynamics, Special Relativity, and Quantum Mechanics (Physics 73.1).
- Checked problem sets for Mathematical Physics (Physics 112), Statistical Physics (Physics 151 and 152), and Quantum Mechanics (Physics 241 and 242).

## Education

### University of the Philippines Diliman

Quezon City

PH.D. IN PHYSICS - ADVISER: ERIC A. GALAPON, PH.D.

Aug. 2019 - Jan. 2023

- Dissertation title: Theory of quantized relativistic time-of-arrival operators for spin-0 particles and its application in the quantum tunneling time problem
- Constructed a formalism on the construction of relativistic time-of-arrival operators and showed that the tunneling time for a square barrier is instantaneous provided that the barrier heights is less than the rest mass energy.
- Scholarships: Department of Science and Technology-Accelerated Science and Technology Human Resource Development Program (DOST-ASTHRDP) & UP Teaching Assistantship (Teaching Fellows and Teaching Associates) Program

### University of the Philippines Diliman

Quezon City

M.S. IN PHYSICS - ADVISER: ERIC A. GALAPON, PH.D.

Aug. 2017 - Jun. 2019

- Thesis title: Weak equivalence principle in the quantum regime: Compatibility with quantum mechanics, and tunneling effects via the different quantizations of the time of arrival operator
- Studied the quantum violation of the weak equivalence principle for a structureless particle fired upward. This was done by quantizing the classical expression of the classical time of arrival using various quantization schemes, as well as supraquantization, to construct a time of arrival operator. The violation of the weak equivalence principle was demonstrated by showing mass-dependent quantum correction terms to the classical time of arrival as well as mass dependence on the time of arrival distribution.

### University of the Philippines Diliman

Quezon City

B.S. IN PHYSICS - ADVISER: ERIC A. GALAPON, PH.D.

Jun. 2012 - Jun. 2017

- Thesis title: Synchronization of quantum and classical clocks, and energy translation using resolvent functional calculus for the confined time of arrival operators
- The thesis aimed to study some physical and mathematical aspects of the time of arrival operator. The first half deals with eliminating the effects of quantum correction terms up to an arbitrary order for the classical time of arrival of a free particle. By doing so, we are able to synchronize a classical and quantum clock that uses the time of arrival of the free particle as time interval markers. The second half deals with the energy translation properties of the confined time of arrival operators.

### Philippine Science High School - Western Visayas Campus

Iloilo City

HIGH SCHOOL DIPLOMA

Jun. 2008 - Mar. 2012

- Graduated with High Honours
- Participated in provincial and national competitions to represent the school

## Awards and Grants

2022,2019, 2018	<b>Office of the Vice President for Academic Affairs (OVPA) Research Dissemination Grant</b> , Awarded to outstanding faculty and REPS researchers who receive invitations or gain acceptance to present their research papers in prestigious international conferences.	Philippines
2022	<b>Student Research Support Fund (SRSF) - Research Dissemination Grant</b> , Support for DOST scholars accepted for oral/poster presentation in a local or international conference	South Korea & Austria
2019	<b>Office of International Linkages (OIL) Travel Grant</b> , Support for researchers and graduate students for paper presentation at international conferences	Israel
2019	<b>International Publication Award</b> , Awarded by the University of the Philippines to faculty and students who were able to publish papers in ISI journals	UP Diliman
2017	<b>Leticia Shahani Award for Best Undergraduate Thesis in Physics</b> , College of Science Graduation	UP Diliman
2016	<b>Diliman BPI-DOST Science Award</b> , Awardees are selected on the basis of their academic and research performance and nomination from the school	UP Diliman
2016	<b>International Publication Award</b> , Awarded by the University of the Philippines to faculty and students who were able to publish papers in ISI journals	UP Diliman
2012-2016	<b>University Scholar</b> , Awarded by the University of the Philippines to students who were able to garner a GWA higher than 1.25 for the semester, 1st Sem A.Y. 15-16, 1st Sem A.Y. 12-13	UP Diliman
	<b>College Scholar</b> , Awarded by the University of the Philippines to students who were able to garner a GWA higher than 1.75 but lower than 1.25 for the semester, 2nd Sem A.Y. 14-15, 2nd Sem A.Y. 12-13	UP Diliman
